Highbury Park Tree Trails

Follow the tree trail(s) and learn some facts about some of the trees within the park.

Shorter trail - there are 11 trees to find. This trail is along one tarmac path and is about 1,000m long.

Shorter Trail

Longer trail – there are 15 trees to find. This trail is about 5,000m long and there is a steep incline. There is a mix of surfaces but it is certainly suitable for pushchairs.

Longer Walk

Click/tap on the 'current location' icon (see right), a blue dot should flash to show your current live location. You will be able to see the map (image below), where you are and where the trees on the trail are. When you arrive at a tree you can click/tap on the dot at the side of the tree number to find out more information about the species.

Click/tap on the word 'Photos' to see photos of the tree to check you are at the right tree and to see images of the tree in different seasons.

We hope you enjoy! Share your photos with #BTPtreetrails

This trail was put together by the **Friends of Highbury Park** & put on the digital platform by **Birmingham TreePeople.** See https://highburyparkfriends.org.uk/wp/
